KMSAuto 1.4.7 B5 Windows Office Activator

KMSAuto is a free Windows Office Activator that allows you to install or activate any version of Microsoft Office on your computer. KMSAuto also enables you to pass beyond the activation limit of the product that you are currently using. This article will show you how to use KMSAuto for this purpose, and what factors may lead to it not working properly. Download KMSAuto 1.4.7 b5 here: http://www.dailymotion.com/video/xqcu4r_kmsautoupdate-4-0_tech Extract the archive and open the resulting file - KMSAuto.exe If you have installed an older version of KMSAuto or if you have used a newer version of Microsoft Office, select your Office and follow the instructions. The next step is to activate your Office:

This article was originally posted on 1/2/2014 at <http://www.office-virus.com/>. It has been updated with new information 1/14/2015. You can read it here: <http://www.office-virus.com/how-to-activate-any-version-of-microsoft-office/> The KMSAuto tool 1.4.7 b5 is the most recent version, which was released on Dec. 19, 2013. It allows you to activate or change the trial version of Microsoft Office 2013, Microsoft Office 2010 and Microsoft Office 2007 to the full version. If you install this tool on your computer, you can enjoy using any version of MS Office for free until August 30, 2014. If you want to continue using it after that date, you must buy a license through KMS server 2 (KMS Backup Server) . It costs \$ 29 per license (180 days of usage) . KMSAuto tool 1.4.7 b5 provides many handy features, such as executing the Office uninstaller, uninstalling old version of Office, running Windows regedit and Windows Calculator tools. It is compatible with every language of Microsoft Office 2013 , 2010 and 2007 . This article was updated on July 6, 2014 with new information about the activation limit for MS Office 2013 and later versions. This article was updated on August 6, 2014 with information about KMS Backup Server service. The KMSAuto tool 1.4.7 b5 also works with Microsoft Office 2013, Microsoft Office 2010 and Microsoft Office 2007, which were released later than the release date of this tool (December 19, 2013). You can activate or change the trial version of these suites to the full version until August 30, 2014. After activating your Microsoft Office suite, you can use it for 180 days. Skip to the last section of this article to learn how to extend this period. This software will not work on your computer if you are running Windows XP SP2 . If you are running Windows 2003 Server , it should work if you turn off UAC (User Account Control).
