A: seems to be some problem with encoding or something like that. I corrected it and checked it and it works. I think if you go to trash bin and empty it there might be some file in there that has encoding problem. Also check previous question: Bash script to find and remove duplicate lines from text file This holiday weekend all of us living in the age of social media will find ourselves in a surreal scene: Everyone from grandparents to teenagers from every walk of life — white, black, brown and all shades in between — will be talking to each other through the magic of Twitter and Facebook and texting on their cell phones. It's a good thing that it's all mostly bullshit, because the sad truth of the matter is that it's probably the only thing that's "real." Social media is fake. It's all artificial. Nothing ever goes viral. I love it that way. So I'm going to go on television and say it to everyone's face. I'm going to stand on Oprah's set next week and say it to all of America. I'm going to stand on the carpet next week before the Oscar telecast. I'm going to tell people to their face that nothing is real. When those Kanye West-types come running up to me at the Grammys and scream "I love Kanye West!" and I tell them that nothing is real, they're going to thank me for saying what needs to be said. Related News Related Internet I'm going to be on stage this year, singing and dancing to you live on television. I want you to know this. I want you to know that the gossip, the auditions, the concerts, the Grammy's, the photo shoots, the rumors, the Twitter, the Instagram, the gossiping, the selling out — all of it is artificial. Nothing is real. All of the things you do to get attention are fake. The thing you always do is try and talk about a person as though they were real. Oh, my God, is Kanye West, "a man who's bringing back commercial hip-hop?" He's nothing but a faker. No, he's not a bad guy. He's not a bad guy because he keeps it real. What does that mean? He's real. He's being real, and we've come to accept that as the way people are supposed to act. Let me tell you something. And I know 754eb5d184
