The original soundtrack of this game contains 10 tracks. I used to play the original, but it's not that good anymore so I uploaded some tracks with the new soundtrack. For the record, this soundtrack is a mashup of some of the original tracks. I did some efforts to get the soundtrack to be as compatible with the new game as possible. If you don't have the original soundtrack, you might want to check out some of the other videos in this playlist fffad4f19a
