This free tool allows you to use macros or Java Applets inside of websites, to execute some instructions and control things like the mouse or your webcam. This tool also has an option to download the list of sites that you have blocked. In this list you can see each website's name, the browser used, the date and time of blocking, and the information of the IP. **IMPORTANT NOTE: THIS TOOL ONLY BLOCKS THE WEBSITES YOU ARE INTERESTED IN BLOCKING. IF YOU WANT TO BLOCK THE DOGETIME WEBSITE, ADD IT TO YOUR BLOCKING LIST.** This way you can block every website you want using this tool. This is a website blocking application. It may be used by parents, adults or children. **IT WILL NOT BE A SUBSCRIPTION SERVICE.** You can choose to use this web browser or not. It is a free website blocker. You can download it for free, as a student, or as an adult. You can click on the picture of the cat to see how it works. **HOW TO USE IT:** The application uses a list of predefined website addresses. You can block access to all of these sites and even add more. The website address is entered in the address field of the browser. What you can do: Stop executing the javascript of the website. Capture the screen or the microphone. Download and install the list of websites you blocked. Change the status of the websites. How you can use it: The application includes a list of websites you can block, including the date of blocking and the IP address. The application can be used in the browser using any operating system and at any time you want. **IT WILL NOT BE A SUBSCRIPTION SERVICE.** You can choose to use this web browser or not. It is a free website blocker. You can download it for free, as a student, or as an adult. **WHAT YOU CAN DO WITH IT:** This is a free tool. You can use it to block any website, or to block all of the websites you have decided to block. The application will not keep the blocks even after a specific time, as the application is not a subscription service. You can download the list of websites you blocked to your computer. The application will add the websites you blocked to your blocked list. When the application is started for the first time, a list of websites to block will be displayed to the user
