
Rar Life Is What You Make It Preeti She Y 16 Torrent Ebook Full [mobi]

Download eBooks Preeti Shenoy (2014) (2).pdf .--- abstract: 'The ability to automatically generate executable code from a specification is essential to a practical programming language, but existing approaches suffer from scalability and efficiency issues. As a step towards addressing these issues, we show that the converse problem, [**i.e.**]{ } the ability to generate specifications from existing code, can be decently solved. More precisely, our approach is capable of obtaining a high level specification from a “thin” kernel written in a programming language (e.g., C) by decomposing and mapping to intermediate representations at the appropriate level of abstraction. We evaluated our approach on a data type dissection task and obtained promising results in both accuracy and efficiency. Future work includes extending the approach to larger programs, supporting some form of automatic code generation, and further exploring the representational efficiency issue.' author: - 'Amin E. Shokrollahi' - Alireza Farshimian - Madeline Walker - Uroš Marković - Kristina Lekšić - 'Matthew J. Matisse' - Gabriel Stoltz - 'Andrew M. Dai' bibliography: -'references.bib' title: Specification Generation from Code --- From the Wild West to the Jazz Age, the world of film is alive with the sights and sounds of its most colorful characters. The people who appear in these classic stories — whether they're traveling the dusty desert roads with their wagon trains, roaming the concrete jungles of South America, or roaming the streets of New York's theater district — bring us faces from our childhoods that have become some of the most iconic in the world of film. Whether you're a fan of the western, the spy thriller, or the musical, we've got you covered on this two-part docu-drama about the 100 years of cinema.1. Field of the Invention The present invention relates to a polishing apparatus for polishing a surface of a substrate, such as a semiconductor wafer, by pressing a polishing pad against the surface of the substrate, and also to a method of supplying a polishing solution to the surface of the substrate. 2. Description of the Related Art In a typical polishing apparatus of this type, an annular polishing pad is mounted on a circular pol
