

===== KMACRO1 - OPEN REGISTY KEY KMACRO2 - CLOSE REGISTY KEY KMACRO3 - LOAD REGISTY KEY KMACRO4 - LOAD REGISTY KEY EX KMACRO5 - REPLACE REGISTY KEY KMACRO6 - CLONE REGISTY KEY This plugin requires a hauppage 2.5.1 build from hauppage forums. Extensions to use: ===== THE OUTPUT MUST BE OF THIS FORMAT: ...audio codec-data... If used, you must add the parameters to the config.xml Known issues: ===== 1. You can't set the HDAM to use 256-bit audio. 2. If you change the channel bit-rate, you should change the output bit-rate and channels. 3. If you use mediatomb and the video gets corrupted, try the newest mediatomb version. 4. If you use the Audio Renderer Changer, you have to restart your mediatomb before it can work.Sculpture Earth Day on the MTN campus Celebrate Earth Day on the MTN campus with a collection of sculptures which are embedded within the curriculum and interpret the impact of the environment on human culture, society and economy. The sculptures are situated around the campus to encourage their contemplation and to challenge us to find new ways of living sustainably. The four sculptures are the World's Tallest Cloud, the Raindrop, the Biosphere and the Desert. The World's Tallest Cloud The sculpture is a representation of the static images we may see of clouds in our everyday life, such as an umbrella, grass, hair, etc. This sculpture is a reference to how clouds come from the sea and have the most influence on Earth's weather, the most important mechanism behind climate change. The sculpture is an artefact of the cloud. The sculpture is a reference to how clouds come from the sea and have the most influence on Earth's weather, the most important mechanism behind climate change. The Raindrop Raindrops are very small, in the order of one cubic millimetre. They are very mobile, dynamic and ephemeral. However, they also have a large impact on the world. It is the raindrop which gathers minerals from the atmosphere to make rocks and soils
