Jun 29, 2008 I am looking for a driver for my JVC GZ mini DV. I have a Sony UIO i360, so i would think that it would work with the same driver. The Mini DV is a convenient way to record video onto a camcorder. Apr 30, 2011 I can get the camera working by loading a special JVC driver through USB, but I cannot get it to record. Can someone help me? Possible drivers for JVC mini-DV camcorders May 5, 2009 I have a JVC mini-DV camcorder (model GZ, GZ2, GZ25, or GZ31) and have been trying to get it to work with my Windows Vista computer. Jun 12, 2008 Not sure if this works with XP, but I think it is worth a try. IF IT WORKS YOU WILL RECEIVE A MESSAGE LIKE BELOW BUT MAKE SURE TO CHECK BOTH THE BOT Y AND BUS Y TO BE UNCOMPROMISING When you insert the camcorder into your computer, you will see a screen that looks like this Jun 18, 2009 The camcorder driver is located in C:\Program Files\Sierra\Sierra Suite\SierraInstall\Drivers\WinCAM.sys Version 2.0 By: [email protected] Jun 18, 2009 I have a panasonic videocamcorder (model GZ-20). I don't know if this camcorder works with Windows Vista. If it does, could someone tell me how to install it? A: This is the link I provided above to the answer to a similar question from last year. The Mini DV Driver was released. A link to download the driver is here. To use this driver, you need to perform these steps. You must have the JVC GD-HC1 Windows XP driver. The JVC GD-HC1 is the motherboard of the camcorder, and the Driver needs to match your motherboard. The GD-HC1 has a ZZR. Go to the hard drive where you installed the Windows XP. Open the folder located in C:\Program Files\Microsoft SDKs\Windows In the folder found in C:\Program Files\Microsoft SDKs\Windows\, Click
