CNC milling tutorial for beginnersValve Controls Valve The Valve Controls Group contains more than 100 product lines and is one of the world's largest manufacturers of valves, controls and instrumentation products. We are part of Ambeal Corporation. Ambeal was formed in August 2004 by the acquisition of Valve Controls Group, Inc. (VCL) from AMB Group (NYSE:AMB). Prior to their acquisition by VCL Group in 1991, the companies that make up VCL Group had a history of working together for more than 80 years and had first developed their market leading position in valves in the early 1950s. VCL Group's products cover a broad range of functions for many different markets: chemical, food and beverage, pulp and paper, oil and gas, power and process industries. Our products are used in many different applications such as heating systems, water systems, pumps, sprayers, valves and precision instruments. Ambeal Corporation and VCL Group are dedicated to bringing innovative products to the market that have never been offered before. The Valve Controls Group creates products that maintain and improve the safety and efficiency of our markets. We are focused on innovation, quality, reliability and total customer satisfaction. We understand that our customers want to work with the best and rely on us to bring them innovative solutions. Our products are used in many applications including the medical, power, water, process, pulp and paper, oil and gas and chemical markets. Valve Controls Group and Ambeal Corporation are committed to the protection of our customers, employees and the environment. We strive to produce products that are safe to the environment, are reliable, and have long service lives. Ambeal is a member of the United Steelworkers and has a strong union tradition.1. 570a42141b
