Minimum requirements: Mac OS X 10.9 or higher (10.10 recommended) Microsoft Excel 2010 or later. Mac OS X 10.9 or higher (10.10 recommended) Microsoft Excel 2010 or later. TagMP3Nursery was created to do something quite simple, tag MP3's and tag MP3's folders on the Mac. It does this by creating a tag in MS Excel. What are tags? Tags are a name for each and every file. These names are used to organize your music or other audio files into playlists. Tags can contain all kinds of informations. It's up to you to decide what it should contain. What does TagMP3Nursery do? TagMP3Nursery is a Mac application that can read, edit and save tags in MS Excel. For each file, TagMP3Nursery creates a single cell in MS Excel, containing informations about the music. These informations are tags. How can I use TagMP3Nursery? First of all, select a folder on your Mac that contains music. You can do that from the drop-down menu or by drag-and-drop. The second step is to open a folder in MS Excel. Select this folder and select File | Open. Now select the folder with the music in it and press the open button. When MS Excel opens, the TagMP3Nursery window should open automatically. If it doesn't, press the ok button. The window should look like the picture below. On the left hand side is the list of files. This list 1d6a3396d6

TagMp3Saito
