An open-label, randomised, 2-treatment, crossover study was conducted in 24 healthy men to assess the bioequivalence of a single 20 mg dose and a 20 mg followed by a 40 mg dose of a commercial product of nifedipine immediate-release tablets, to demonstrate that 20 mg nifedipine immediate-release tablets may be administered for once-daily treatment regimens. Peak plasma levels and area under the nifedipine plasma concentration-time curve (AUC) increased approximately proportionally to the oral dose in both administration sequences. The 90% confidence intervals of both the Cmax and AUC parameters for the 20 mg dose are contained within the 80-125% bioequivalence range for the 80-125% bioequivalence range for the 20 mg dose and the 80-125% range for the 20 mg/40 mg dose. No significant differences between the pharmacokinetics of the 2 treatments were observed. This

What they have learned at Tandjila is not the requisite military power to push back the Bosnian Muslims, and are they going to deploy the designated force of some 25,000 soldiers of the Joint Army/Croat Army or the only 6,000 soldiers of the Motorised Rifle Brigade of the Army, in a conflict on their own without the proper support? The Croat National Army is only the third largest Army of the entire country. Although the Croatian Army has been mechanised and trained in the last few years, it has only a limited amount of medium and heavy weaponry, and only with war will they be able to replace equipment lost in Bosnia. The Croatian Army may therefore fall prey to the same fate that Yugoslavia suffered, and lose all of their equipment. As for the Croats in Bosnia, they 570a42141b
