Pirox Fishbot 4.3.4

. pirox fish bot 3.3.5 is the best & all pirox fishbot 4.3.4 know is v.w1Q: PowerBI - Create Multiple Rows of Data based on 3 conditions I have created a table in Power BI and I want to create multiple rows if 3 conditions are met. I want to create 3 rows for each meeting of the conditions. Where "Receiving" is less than 2, "Drought" is TRUE, and "Status" is "Open", and an additional row if the "Status" is "Under Review". Status | Receiving Open | 2 Drought | TRUE Open | 2 Open | 2 Under Review| 1 This is what I have so far: Status | Receiving Open | 2 Open | 2 Open | 2 Open | 2 Under Review | 1 A: As your conditions are 3 conditions. For each row, you should have 3 rows. For example, for your data above, you should have: Status | Receiving ---- | ------------ Open | 2 Open | 2 Open | 2 Open | 2 Under Review| 1 Assuming that Status is a column, Reccing is a number and you have these columns in the PowerBI desktop client, you could use: Status | Receiving Open | 2 Open | 2 Open | 2 Open | 2 Under Review| 1 For Status = Open and Receiving = 2, this could be achieved using below: IF (Status='Open' && Receiving = 2, 1, 0) UNION ALL IF (Status='Under Review' && Receiving = 1, 1, 0) UNION ALL IF (Status='Open' && Receiving 2, 0, 1) UNION ALL IF (Status='Under Review' && Receiving 1, 0
