Portable Web Link Captor is an easy to use application that was designed in order to provide you with a simple means of generating lists that contain links to any terms you choose to add to a web search. The output result can be easily displayed on a forum or a blog since it is already formatted. To remove the nag screen, you need a full license that can be obtained freely via this page. Portable Web Link Captor Conclusion: Portable Web Link Captor is an easy to use application that was designed in order to provide you with a simple means of generating lists that contain links to any terms you choose to add to a web search. The output result can be easily displayed on a forum or a blog since it is already formatted. To remove the nag screen, you need a full license that can be obtained freely via this page. Portable Web Link Captor Keywords: Q:  $\int_a^b \frac{\mathrm{dx}}{\cos^n x}$  I was wondering if there exists a way to calculate  $\int_a^b \frac{\mathrm{dx}}{\cos^n x}$  when  $n$  is a positive integer. I tried to use the following partial fraction decomposition, but I didn't know how to deal with the pole at  $x=0$ . Any help would be appreciated.  $\int_a^b \frac{\mathrm{dx}}{\cos^n x} = \sum_{k=1}^n \frac{c_k}{n-k} \frac{\mathrm{dx}}{\cos^{n-k} x}$  A: Hint: Use the substitution  $u = \cos^n x$ . A: Use the substitution  $u = \cos^n x$  and then use the well known formula for integrals:  $\int_a^b \frac{\mathrm{dx}}{\cos^n x} = \frac{1}{\cos^n a} \int_0^{\cos^a b} \frac{\mathrm{du}}{\cos^n u}$ . 1. Field of the Invention The present invention relates to vacuum devices, particularly to an electrically operated vacuum pump that is easily detachable and operable with minimal skill. 2. Description of Related Art Vacuum pumps are useful in many applications. A typical vacuum pump

A portable application for generating web links. More Info: Why not consider adding this web site to your list? WebLinkPro is a unique web site scanning software that quickly lists links to any domain name that is typed into a text box on a Web page. The software is unique and simple to use. Just enter the name of a Web page and the software will scan the page, lists all the links to that Web page. The text of the links are automatically searched for a match in an internal database and the software will print out the web addresses of those links that have been found. The program is extremely fast and can generate links in less than a second. Key Features of WebLinkPro: • A full text search in any web page. • A field for entering the link text. • Free for home and personal use. • You can add any of the fields to a database. • No installation is required. • The software is easy to use. • No re-installation of your computer is needed. #### What's New In Portable Web Link Captor?

The Portable Web Link Captor (Portable.Web.Link.Captor) is an application that was designed to provide you with a simple means of generating lists that contain links to any terms you choose to add to a web search. The output result can be easily displayed on a forum or a blog since it is already formatted. Here are some screenshot of the application: Main features: 100% Free Software No annoying registration required. Includes pre-installed web search engine (Google, Yahoo, Live, DuckDuckGo) Captures any web link you place in the web search window (either you're in a web browser or use it via a link to a PDF, a pic or a video file) You can add any terms you choose to the web search window (i.e. URLs, tags, Wikipedia, Digg, etc.) Optionally allows you to save captured links for future use Presets included, you can choose the one you like most (you can find the presets in the application). Optional preference settings, you can decide which browser to use for the web search (the default web browser is used), what source to search in (Google, Yahoo, Live, DuckDuckGo), what time to stop the web search and what type of result to display (most reasonable result, first result, highest votes, random). How to install: 1- Unzip the downloaded zip archive in a folder that you will keep. For example if you named your unzipped folder "www", place it in the "www" folder. 3- On your computer you will need to copy the Portable.Web.Link.Captor to a folder that is easy to access. For example if you named your download folder "www", copy the application to the "www/www.dir". 4- If you are using the Portable.Web.Link.Captor via a link to a PDF, a pic or a video file, then double-click on the file to open it. On your computer, you will need to close the Portable.Web.Link.Captor application. If you are not using the Portable.Web.Link.Captor via a link to a PDF, a pic or a video file, then double-click on the Portable.Web.Link.Captor application. The Portable.Web.Link.Captor is free for both commercial and non-commercial use. No payment will be asked in order to use the Portable.Web.Link.Captor. Please do not make changes or modifications in the source code. You can however offer help and fix bugs if you need. NOTE: If you want to remove the nag screen, you need a full license tha can be obtained freely via
