The SNP's Mr Johann Lamont this morning welcomed the recognition by Theresa May that the UK's nuclear-weapons programme has "no independent purpose" in the 21st century. She made the admission this morning as she opened a new world-leading centre for nuclear security in North Yorkshire. But the Scottish National Party (SNP) MSP for Glasgow North West has responded by saying: "This is not the first time the UK's nuclear weapons programme has been revealed as a complete fraud." Ms Lamont said the £10.7 billion process of refurbishing four ageing Trident-class Vanguard missiles at the Faslane naval base had been put on hold. She said: "A major disruption is underway at Faslane with the knock-on effects likely to hit the livelihoods of the families of local people. "The SNP has warned for some time that Trident would ultimately prove a burden on Scottish taxpayers and we welcome this recognition from the UK government." Mr Lamont said the SNP had been pressing ahead with plans to seek a judicial review on the protection of Scottish interests in the activities of the Trident programme. 3e33713323
