## What's New In NetMedia Resource?

The radios in this list are all internet radios. There are two ways to use this program. 1. New User: - Click to add new radio - Click to delete radio - Click to re-sort the list 2. User: - Click to edit radio - Click to delete radio You must be a certified user to be able to delete radio (see user manual for more details) NOTE: If the user fails to accept the terms of the license, the program may not run correctly. (Please email us for any support: [email protected]) We can't accept any warranty for the radios in the program and make it free for all. However, we will refund any loss of money or warranty in case the program cannot meet the requirements. If you find the program handy, please rate our program:  (Thanks!) We will be reporting to users who have committed rules violations when they register. (You might need to verify your email address once you have registered.) It is recommended that you sign up for a free service like 5million emails that we will provide once you have finished activating your profile. You can do this by clicking the following link and opting to sign up for a 5Million email service: Thank you in advance for your support of our mutual work. Requirements: - Have a device on a network - Know that the rule and reporting functions of this program have limitations - Provide us with the link to confirm you are the owner of the network We will never charge you, share your personal information, or sell to a third party any information you provide to us. We will only use the information to provide you with the program services you ask for. All accounts registered will be listed on our support page. (Please refer to our support page for any issues while using the program.) There will always be a brief lag for new broadcasts to be added to the program as it updates content from the internet and so on. This will only last a few seconds and should not cause a problem. If you get no result (for example, the station you want to add is not available) you might need to try a different url/url including the codec (the.flac file). The
