I purchased Digital Clock-7 because I like a lot of the features that it has. The fact that it is a lightweight tool is an additional plus. I have found it to be a very handy tool, and I would recommend it to any computer user that needs a very simple way of displaying the current time on their screen. I have been using the screen saver "Digital Clock-7" for a while now. When the screen saver starts up the screen displays the current time and then goes blank and music starts to play. After about 15 or 20 minutes the screen saver starts up again. It does get a little annoying after a while but I still use it. Digital Clock-7's design is very good looking. I like the green background and the clock is nice and clear. However, there was a problem in the way this screen saver works. The main problem is with the music that plays in the background. The music is so loud it annoys me. When I put up with this for 15 minutes, the screen saver starts up again. It is very annoying. I like
