The software application is priced at \$49.99 and can be downloaded here: [published:22 Jun 2016 PhotoKey Pro](#) This video shows how to import images and apply effects to them with the photo editor application PhotoKey Pro. PhotoKey Pro is a powerful, award-winning digital photo editor which makes editing photos a quick and easy task. Price: \$49.99 PhotoKey Pro Key is a photo editing software application for Mac OS X that allows photographers to manage and edit their photos with amazing effects and stunning looks. User-friendly interface The working area... Key is a photo editing software application for Mac OS X that allows photographers to manage and edit their photos with amazing effects and stunning looks. User-friendly interface The working area has a beautiful design applied to it, with shortcuts for the main editing functions placed in the left side for easy access. You are able to change the canvas dimensions and color, or apply a preset in the foreground or background. The canvas settings also accept standard size presets like A4 or A5. The color can be set to basic or custom value. Another feature present in the canvas is the photo's double view mode: "Foreground Alpha" and "Full Color", with the first one displaying a black and white version of the content. You can zoom in and out using the magnification tool, from fitting the image to the screen, to enlarging it by 400%. Manage your effects Using the import function, you can add image files with JPG, PNG, BMP, or TIFF format with the help of the locator window

What's New In PhotoKey Pro?

PhotoKey Pro is a software application that allows photographers to manage and edit their photos with amazing effects and stunning looks. User-friendly interface The working area has a beautiful design applied to it, with shortcuts for the main editing functions placed in the left side for easy access. You are able to change the canvas dimensions and color, or apply a preset in the foreground or background. The canvas settings also accept standard size presets like A4 or A5. The color can be set to basic or custom value. Another feature present in the canvas is the photo's double view mode: "Foreground Alpha" and "Full Color", with the first one displaying a black and white version of the content. You can zoom in and out using the magnification tool, from fitting the image to the screen, to enlarging it by 400%. Manage your effects Using the import function, you can add image files with JPG, PNG, BMP, or TIFF format with the help of the locator window. If more advanced options are needed by your project, slide over to the "Key" tab where options like red eye removal, blur and auto-color difference are found. From this tab you are able to manipulate light, alpha level and blur, plus many others to get a perfect image. PhotoKey Pro also adds masks to the photos, with alpha and custom feather values. Moreover, the software application has multiple filters which enhance an image. Common filters for transparency, white balance, brightness, contrast or silhouette are found in this list, among others. More features The program uses different positions, scaling and rotation values, accessible from the "Position" field. Layers and overlays can be added to the project, in order to blend images. The effects include bleach, blur or soft focus customization. Furthermore, text can be added to the content and then batch exported to JPG, PNG or TIFF file format with custom compression level. Conclusion Overall, PhotoKey Pro is a handy app with a user-friendly interface great for photographers who want to achieve the best quality for their pictures. PhotoKey Pro is a software application that allows photographers to manage and edit their photos with amazing effects and stunning looks. User-friendly interface The working area has a beautiful design applied to it, with shortcuts for the main editing functions placed in the left side for easy access. You are able to change the canvas dimensions and color, or apply a preset in the foreground or background. The canvas settings also accept standard size presets like A4 or A5.
