Q: Prove by induction that  $2^{n+1} = 2^n \cdot 2$  for all  $n \in \mathbb{N}$   
Prove by induction that  $2^{n+1} = 2^n \cdot 2$  for all  $n \in \mathbb{N}$  (True or False) I proved it but the proof was kind of long and complicated, anyone got a simpler way of proving this? A: If it is true for  $n$  then it is true for  $n+1$ .  $2^{n+1} = 2^n \cdot 2 = (2^n)^2 = (2^n)^2 \cdot 2 = 2^n \cdot 2^n \cdot 2 = 2^{n+1}$

A: It is a special case of the Binomial Theorem. The Binomial Theorem says:  $(a+b)^n = \sum_{k=0}^n \binom{n}{k} a^k b^{n-k} = a^n + a^{n-1}b + a^{n-2}b^2 + \dots + ab^{n-1} + b^n$

Here's a proof using the Binomial Theorem:  $2^{n+1} = 2^n * 2 = (2^n) * 2 = (2^n)(2) = 2^{n+1}$

## Network Port Scanner Crack + [Updated]

Use this software to check your network for unsecured, open, unencrypted ports. Download this software for free! How to install a network port scanner Visit the software's page on our website and follow the simple instructions to install this program on your computer. Just as I was starting to write this article, I came across a cool free software application that I just had to share it with you guys. It's a software application called Win7 Hide for Windows 7. All right! You are probably wondering what is Win7 Hide for Windows 7? In a nutshell, it's a free software application that enables you to turn any Windows 7 desktop into a single wallpaper in the style of the Windows 7 interface. In other words, it lets you see the custom desktop wallpaper of the same application that you are currently using. You can create your own set of custom Windows 7-style wallpapers and place them on your desktop, while your Windows 7-style Start menu is still visible. Apart from this, the software also enables you to see your desktop wallpaper in different sizes and can even create your own sizes for you. Furthermore, it allows you to change the desktop theme, resize the icons, set your Windows 7-style Start menu to be visible or turn it off, and much more. This software is absolutely free and does not require any special permissions to be installed. That's all for now! I'm sure you are going to love the software and if you don't, I will be more than glad to give you a refund. Let me know if you enjoyed this article and share it with your friends! Do you want to see what's a little different about this software? Read on to find out more. No further instructions are provided, yet all required information is provided to you when the application is installed on your computer. The installation is smooth, yet this software requires more than 2 GBs of space on your hard drive, which is a pretty low amount. The interface of the software application is not minimal or clean; it is extremely simple and comes with rather a large assortment of features, such as the option to show desktop view or the option to turn off all the icons, while they can also be uninstalled completely. To run the software, you should launch it from the Start menu and click on the Get Windows 7 Hide Wallpapers button. 1d6a3396d6
