If you are not happy with your download manager for Firefox (or another browser), why not try one of the following alternatives. Want the most popular download managers for your desktop? Check out our Ultimate Guide to download managers for Windows. Don't forget to check out our also Best download manager for Windows and Best download manager for Mac downloads. Like it? Take it! One of the download managers from our collection mentioned in this article, was kindly given to us by the respective developers. Firefox is the most popular web browser for Windows and the second in terms of users worldwide. This simple extension allows you to download files in bulk and saves you time and energy. It works with many popular applications, including Download Studio and BitComet. Download Firefox 3.6 Beta 8 "Velociraptor" YOU MAY ALSO LIKE: K9webtools K9webtools is an easy-to-use, web-based toolset that will help all developers do their work more efficiently and productively. You will be able to speed up the web development process. DivX Manager Pro 10.1.1 DivX Manager Pro is the foremost DivX downloader. It supports the latest DivX download technology and is designed for the fast downloading of DivX AVI files. The software is composed of clear and easy-to-understand user interface, and therefore everyone can conveniently use it. DisplayFusion 5.5 DisplayFusion enables users to have complete control over their display settings. With the help of DisplayFusion users can fine tune every aspect of display performance, including gamma, brightness, contrast, saturation, hue, and sharpness. It allows you to protect your display from any kind of frequent changes in brightness and to disable screensaver, blanking, and blinking when you are away from the PC. This, in turn, will reduce eye fatigue, and the possibility of developing eye strain and headaches when you use the PC. It's capable of saving users' visual preferences to an XML-based configuration file, so that you can conveniently restore your display to a particular previously defined setup at any time. Besides, DisplayFusion can record keystrokes and mouse clicks and save the recorded data to an XML-based log file. This allows users to take notes on keyboard shortcuts, for example, for themselves or for others. Finally, it can monitor the temperature, voltage, and fan speed of a computer

FlashGot Crack + Full Product Key Free

The last, but in my opinion, the most important feature of FlashGot is that it uses its own engine to complete file downloads. Thanks to this, it is possible to program all kinds of paths to grab stuff from your computer and export it directly. Plus, it's the very first extension in the market to be Free Software, Free Culture and fully under the GPL license. Version 4.0 Firefox 4 support. New Features: New sidebar popup Adds a left sidebar to the browser with buttons for all the supported download managers (with an option to add a custom one). New main menu Adds a main menu on the left side of the window. Settings Allows users to customize how FlashGot should react when it detects that the page contains a link to a file hosted by Facebook, Google, etc. File/Find Allows the user to specify file paths to download with the different download managers. Custom Download Buttons Allows users to customize how FlashGot displays custom buttons for different file managers.
