I am satisfied with the appearance and operation. itunes does not recognise the closed captions or the radio station list Download 2.18 123 Itunes does not recognise the closed captions or the radio station list This review is the subjective opinion of the user and not of The Software Magazine. Review: Display Images Work with Radio Stations Just downloaded this app and so far from my home pc, I can see it is as easy to use as iTunes. That is exactly what I was looking for. Now I will be able to use WMP with the radio stations. A great app! Thanks for making it. Reviewed by: jacob coles on MacOS X 10.6 Display Images Work with Radio Stations I hate itunes. But its the only way to get my radio stations to play on my laptop. And itunes does not work with the closed captions or the radio station list. Its too much trouble for me to load a windows media player and then have to search for the correct song. Now I can have iTunes play my songs and have the radio stations play on my headphones. Reviewed by: michel tarjome on MacOS X 10.6 Overall: Display Images Work with Radio Stations This app is ok. It opened tif files and so far I have itunes will not open the radio station list. I don't know if the app tries to open a new window or if it tries to just open the station list. If so, it opens an error window stating the itunes radio station list could not be loaded from the tif file. My mouse wheel will not scroll through the list of station names on itunes although it scrolls fine through the stations list on the app. So I use the arrow keys to move to the next song on itunes and the arrow keys to scroll through the list on the app. I
