Previously, AutoCAD had used a proprietary and obfuscated source code, which was closed-source for customers of AutoCAD, but became open-source as of AutoCAD 2009. Production history Autodesk took over the version numbering from the previous company in 2002, and continued to produce the product under this new numbering scheme. The first major release under this new naming scheme was AutoCAD Release 2007. A number of Autodesk products have undergone name changes. The following is a list of those whose name changed during the history of AutoCAD. Autodesk Data Management (ADM) has gone through at least three name changes: AutoCAD Systems Division (ASC) -> Autodesk Data Management (ADM) -> Autodesk Data Management Autodesk Data Management Autodesk Data Management 2 References External links AutoCADWiki, the official wiki for AutoCAD. However, not all businesses are prepared for Facebook Apps. Are you? ~~~ monchic I would only know the second my app is being used. I don't have any insight about what other products the consumers are using and what other products I could be competing with, so I can't be sure I have the right stuff. ~~~ dgabriel Interesting. I don't understand why businesses would wait until they have their app out, they can put their app live even if they don't have any facebook fans. I'm thinking of the app that allows users to leave your business a voice mail with a code to get a discount. Why wouldn't they wait until they have the code to offer to their potential customers?
