To Do Enhanced Free Download [Latest] 2022

To Do Enhanced is a lightweight software application whose purpose is to help you create to-do lists from the comfort of your desktop. Minimalist looks At the end of a fast installation process, the utility places a small panel on your screen where you can manually input the notes that you want to take. In addition, you can hide the minimalist window or make it stay on top of other programs. Entries in the to-do list can be deleted very quickly by double-clicking on them. Configuration settings You can access the set of tweaking parameters by performing a right-click on the to-do list. To Do Enhanced gives you the possibility to clear the content of the list and import/export the information from/to plain text files. There are several customization options that help you change the appearance of the list. You may modify the color of the background, border, and font, as well as alter the text in terms of size and font style. What's more, you can make the application automatically fade out the to-do list when it's inactive and adjust the border thickness, location on the desktop (top left or right, bottom left or right), maximum width of the tool, and prefix that is shown before each item in list (usually a bullet or dash). Tests have shown that To Do Enhanced performs tasks quickly. It is not a resource hog so you can keep it running in the background without worrying that it eats up CPU and memory resources. Bottom line In conclusion, To Do Enhanced comes packed with handy features for helping you organize your time in an efficient way, and is suitable for rookies and professionals alike. If you want to skip the installation steps, you can check out the portable edition of the application, To Do Enhanced Portable.
