job done. This makes the whole process of configuration a breeze for everyone. The suite does not require special laser printers, it will work perfectly with any given inkjet printer too. The File Server is the tool to set user access and file sharing. It can also perform backups of system files and configure server information and file extension mapping. Anything you need to get your files forth and back multiple PCs and MACs is here. Easily manage connected printers The AppleTalk Network component will require an AppleTalk server to be already set up and will provide the means to communicate in a multiple OS environment. The various zones and devices of your network can be managed within the GatorPro component

[b]Windows 8 x64 is finally here![/b] An operating system release that could easily consume the most coverage of any launch in 2012. The Windows team has made some substantial changes to the underlying foundation that put Windows 8 in a place to allow the OS to better take advantage of new technologies, new devices, and new ways of computing. While Windows 7 was already a very mature product, Windows 8 needed to really improve upon the strengths of Windows 7 in order to be successful. Now that it has, I think we can be proud of how Windows 8 is performing. [b]Quick Start[/b] Windows 8 is a completely new take on the OS. As a consumer, I found that Windows 8 was very easy to use. For example, when I first installed Windows 8, I didn't need to do anything to get started. When I clicked on the Start button, it automatically opened the Start screen. The Windows 8 Start screen is a new user interface that offers a fresh new way to start using Windows 8. It's not your typical Start menu. Rather than having all of your programs listed on the right, it's a tiles-based UI with your pinned apps on the left. The

tiles are color-coded to help you quickly know what a particular program is. Each tile has multiple features associated with it that allow you to do something with the program or app directly from the tile. This is a refreshing interface. I enjoyed the tiles interface, and I also enjoyed how fast the Start screen worked. [b]Start Menu[/b] The start menu wasn't a huge part of Windows 8, but I'm glad it's there. You will need to install the Windows 8 Consumer Preview to use the
