Back in 2012, on the eve of the Paris climate talks, the head of the World Meteorological Organization (WMO) admitted that global warming is "unprecedented", according to Climate Depot. A few weeks later, the UN IPCC confirmed the WMO was correct, and the IPCC warning that we are facing "untold misery" was issued. A few months later, in February 2013, it was revealed that the IPCC had ignored a letter from the WMO, stating that the cause of warming in the last 100 years is not human. A statement issued by the WMO said: The UN IPCC warnings and the WMO statement are not "activist science". They are just the facts. Now, in a strange twist of fate, the UN IPCC report, which has been ridiculed as being done by a bunch of "climate alarmists" and a fraud, has now been refuted by the UN itself. In a statement, it

said: The Climate Science Special Report (SCSR) has not been reviewed or approved by any organisation or individual with a significant interest, including the United Nations Framework Convention on Climate Change (UNFCCC). The UN said that the total number of climate scientists involved in the IPCC second assessment report was 297, meaning that at least 31 of the 97 co-authors of the most recent report had no scientific qualifications. Of the 97 authors, 69 hold doctoral degrees, the UN said, while 44 were involved in the original 1996 report. The UN statement added that the UN IPCC's findings are "materially altered" by the work of climate change "activists". More than 100 scientists have now said the UN IPCC report is rubbish - and they have a point. There is no scientific support for the man-made global warming "scare" and it is based on a huge propaganda scam. And now the UN is admitting that it has been totally discredited. That's fantastic news for those of us who

believe in real climate change and real global warming and not the fraud that is being committed against humanity by the politically-correct, left-wing, anti-capitalist elites of the UN. President Donald Trump could not have said it better. The 570a42141b
