System Requirements:

The game will work on most laptops. However, we do recommend an Intel i5 CPU and 8GB RAM. You can find compatibility information for your laptop at the Intel website. The game is currently available on Windows 7, Windows 8, and Windows 10. For each platform, you can see a list of compatibility information on the Steam page. We're working to ensure that the game will work on all of the common platforms and configurations, but it's a huge undertaking. If your laptop does not meet the minimum requirements, you
