What is VOVSOF? VOVSOF is a program that supports converting PDF to TXT (MS Word) files and HTML files with foreign characters. VOVSOF allows to save a TXT file (more than 100 formats) or HTML (more than 300 formats). You can easily replace the characters of the text by the ones they have. If you need a command-line utility, VOVSOF has a command-line version. The advantage of this version is that when you run it, you can attach the program to a process list and it will run to completion automatically once a PDF is opened. VOVSOF - PDF to Text Converter Features: Convert from any type of PDF to TXT and HTML formats Be able to convert any type of PDF document to TXT, HTML.
