
Captive Portal Raspberry Pi [EXCLUSIVE]

June 4, 2020 - Captive Portal is a web page that automatically opens the user's default browser or loads when they try to visit a web page. User .

June 4, 2020 - Captive Portal is a web page that automatically opens the user's default browser or loads when they try to visit the web page.

Chrome browser users are facing a new problem: they are faced with a web page that loads automatically after clicking on a link, and they cannot navigate directly to a website that opens through the Captive Portal. This is obviously a problem that has appeared since the release of the Chrome browser.
