ArtPose Pro key full for windows The WookiePad – Donate \$1.99 to save a Wookie - jacobwg ===== jacobwg The WookiePad is the first electronic guitar simulator that has been totally refined and brought to market. As a guitar-playing humanoid, the WookiePad includes a VSCO stick that is controlled by a face-tracking camera that follows your facial expressions as you play. In addition to the guitar, the WookiePad includes a VSCO stick for bass, a VSCO stick for drums, and a VSCO stick for vocals. It's as if the WookiePad were your own personal band. (Filmed in an actual studio with "real" guitarists and singers.) ~~~ judofyr I've seen a lot of the modern VSCO sticks and I think they look really cool for guitar, but I also never quite understood the idea behind them (I'd prefer the GoPro model). The idea behind the WookiePad is pretty cool, how do you simulate the guitar pedals and other effect as a face-camera? ~~~ jacobwg You face-track the face with the camera, and it determines the speed of the pedals and other effects as a function of how you move your face. ~~~ judofyr Ah, that makes sense! (There are other ways of doing this, I just didn't know if this was one of them.) ----- liquidise It'd be nice if they explained the device better. As it stands: Buy it. ~~~ jacobwg I'm sorry! I just put together a video explaining the concept. It's at [
