Is there any good apps for this purpose and also a security issues that must be considered while transferring such content from Internet. A: If you are just uploading content you may use the services available from Android Market. This is basically a website that allows you to publish your own Android apps and content. You can have your app, and the pages on which it resides, all reachable from a single URL (e.g., Of course, you have to design your application to behave in a way that suits your content. By default, for example, Google Reader publishes your feeds, which of course would be out of place on a mobile device. A: You may try offline readers like "WebSlurp" and if you want a really new thing try this App Tiny web browser that loads any kind of web page on your device. Evidence of attentional bias for emotional faces in individuals at risk for depression. Evidence of attentional biases for emotional faces in individuals with depression has been inconsistent. The current study examined attentional biases for facial expressions of fear and disgust in individuals at risk for major depression. Healthy controls 54b84cb42d
