System Requirements:

Default Resolution: As of 2016, the minimum requirements to play at 1080p is a NVIDIA GTX 970/AMD R9 290X/R9 290 or better. The higher the GPU, the better, but most will get by with a GTX 660 and will be more than fine at 1080p and at most 1440p if their resolution multiplier is set up properly. But as of 2016, all major graphics cards will be able to play at a 30fps minimum in 1080p. The recommended FPS is above 30. So if you have an Intel i7-
