Convenient Clock

Play your favorite
music at alarm time.

Improved Alarm

Mechanism: Pause
your alarm at specified
time. You can set up
alarm for a specific
time in the future.

Record a Custom

Reminder Message:
Record a reminder message with message text and picture and play it at alarm time to remind you of the event. System Tray Notification: Alarm can be received from the tray if you go out for a while. When you return, you can dismiss the message which has

been playing in the system tray. Exit: If you click Exit button, your currently playing alarm will stop automatically.

Recording a Custom Reminder Message is optional. Upgrading feature: You can insert a Beep command (ctrl + b) to play a beep sound at specified time

in the future. Plays Up
To: Up to 128 MB of
RAM is required. All
known sound/video
drivers should work. If
you are experiencing
problems with your
sound/video drivers,
try downloading the
latest versions or
restarting your
computer and see if
the problem is

resolved. Current version has a 300% CPU load while playing sound in fullscreen mode. This issue will be solved when I can use newer sound system or proper fix. Download Convenient Clock Free Download from here (Latest version) Convenient Clock

Crack For Windows -

Full Version is an application developed to be just a small, fast and free alarm clock.

Plays MP3, MP2, MP1, OGG and WAV sound files, and has a beep alarm function for computers without a sound card.

Convenient Clock can also run a program at

alarm, and display a custom reminder message. Minimizes itself to the system tray and supports both 24-hour and AM/PM time formats. Also has an egg timer feature for shorter-term alarms. Waking up to MP3s has never been this convenient!
