## Bitdefender Antivirus Free Crack +

What is new in Bitdefender Antivirus Free 20.2? New malware protection tools and more than 50 new critical vulnerabilities Autopilot feature tailored to your computer Cloud-based protection and defense system 24/7 Real-time protection and on-demand system scans Basic protection module with no malware removal capabilities As an effective virus protection solution, the Bitdefender Antivirus Free Edition includes the new technology for malware analysis, developed in partnership with Baidu. This new solution helps to identify malicious code, which is the precursor to a successful infection. Each new Bitdefender Antivirus Free product update adds a whole new series of tools to the platform, as well as 50 new threats, delivering a constantly up-to-date security protection module. To improve its effectiveness at identifying and eliminating the most dangerous malware, Bitdefender is constantly innovating its malware detection capabilities. This upgrade incorporates the findings of academic research, which had identified 50 new cyber-attacks that can be blocked by Bitdefender Antivirus Free. In addition, there are three new malware detection features: Bitdefender Total Security Malware Found: for quick detection of malware samples that are created before Bitdefender Total Security has been installed; Bitdefender Malware Watch: keeps an eye on new and existing infections to help remove them quickly when they are detected, and reminds you to schedule an on-demand scan if infected system files can be easily restored; Bitdefender Malware Discovery: uses deep heuristics to detect particular viruses and specialized algorithms to identify the meaning behind the code to prevent system exploits. Autopilot is an innovative new feature that protects your PC against threats before they can harm your device. This tool recommends the best practices for running applications and updates your security configuration automatically, based on the frequency of your device's usage. Scan Scheduling: The auto-scheduling feature helps you to easily manage the scheduled time intervals for scanning, based on the device workload, system priority, and Internet connection speed. This action helps you keep your computer safe and secure by regularly scanning for malware. Cloud-based protection and defense system Bitdefender Antivirus Free delivers the widest cloud protection capabilities, including more than a dozen innovative cloud-based security features that round up the expertise and experience of Bitdefender Total Security. The Bitdefender Antivirus Cloud component leverages its automated threat prevention to protect and secure
