libro.pdf.1. Field of the Invention
The present invention relates to an optical filter and to a method for the production thereof, and more specifically, to an optical filter of an optical waveguide type and a method for producing the same. 2. Description of the Related Art With the recent development of an optical transmission technology, a demand for a filter of an optical waveguide type for extracting a specific wavelength has increased rapidly in the design and production of optical devices such as an optical fiber amplifier and an optical waveguide. The application of a variety of optical devices often requires a

"completamento" (1992) The project was
launched in June 2004 by the Arch. For
each of the two rounds it was to be a final,
all-round battle, but instead it ended up
being a single-round battle because of a
