Q: Rails image_tag not working? I'm just starting with rails and am trying to add an image tag to a page to serve up a logo to show but when I load the page I just get a blank spot. The image file exists, and I've checked the permissions and the location with no errors in the rails log. I've tried different url links, ie: image_tag("logo.png") and image_tag("../logo.png"), and both give the same problem. This is my view This is my layout -

Q: how to get value from alert from a button click in android? I have a some code in my android app as @Override protected void onCreate(Bundle savedInstanceState) { super.onCreate(savedInstanceState); setContentView(R.layout.activity_main); Button btn= (Button)findViewById(R.id.register); btn.setOnClickListener(new View.OnClickListener() { @Override public void onClick(View view) { // Here how to get the value of phone number selected using alert? } }); } Can someone please tell me how to get the phone number value from using alert? Thanks A: You can use Dialog to show up an Alert Dialog. You can pass String to this Alert Dialog and can set the title to that Alert Dialog. See the tutorial for further. Pregnancy in a left-to-right shunt heart: a case report. We present a case report of a 21-year-old woman, who conceived for the first time at the age of 18. She was diagnosed with pulmonary atresia, ventricular septal defect, and aortic coarctation, complicated with left-to-right shunt, but there were no other associated abnormalities. She underwent a successful closure of the ventricular septal defect and complete atrioventricular septal defect under hypothermic circulatory arrest. Because this patient has a left-to-right shunt and infundibular septum formation in the foetal stage, it was assumed that the foetus developed without damage in spite of the hypoxia state. After delivery, the patient was referred to our department for the surgical correction of mitral regurgitation, left ventricular aneurysm and fenestrated ventricular septal defect. She underwent total removal of the leaflet of the left ventricular aneurysm with a card

System Requirements For Adobe Photoshop CS4:

In order to play you will need an operating system which is compatible with OS X, Windows and Linux. This game is OS independent, but in order to play it, you will need an OpenGL 3.3 compatible graphics card. Also, since this is an open source project it is strongly recommended that you are running software that is not 'compiled' with non-free/proprietary software. Instructions: * You can download the game here and install in Steam using the 'Steam' platform. * Alternatively you can download a copy and
