A: Draw a rectangle on a canvas, using the canvas.drawRect(). This doesn't have to be one of the specific color ranges. It can be any shade of gray. Once you have this, you then simply add it using the drawPaint() function, using the paint supplied as the argument. You don't provide any of the actual code you're using but the question is fairly clear and can be covered by looking at the provided link you posted. RAM: 2 GB Processor: 1GHz Processor or better Graphics: 50MB Free On Disk Recommended Hard Disk: 4GBHello everyone. On September 5th we are going to launch a brand new version of RiotPlays, the program that allows players to create custom events. Just like the main time line (LT), the Player Time Line (PTL) will create an experience that gives the possibility to create your own games from scratch. The main difference with the PTL is that we are going to eliminate the boring and old system that was used in the past to create custom games. We've received a lot of feedback about the classic system and the disconnect between the players and the admin part. That is why, in the new version of the PTL, we are going to offer you a unique way to create custom games with no boring codes and also make things easier when you are creating custom games. How to create custom games in League of Legends To create a custom game, you will have to find a reason for the game to exist. We offer you 3 ways to do this: Create a custom game with a team or a tournament Create a custom game and interact with a popular streamer Try our private servers or create a custom game there Is the PTL for everyone The PTL is a program that is specially designed to allow people who are not very active or skilled with League of Legends to create their own custom games. As a result, the PTL will not be accessible to everyone. Is the admin a new hero? No, you will not need to become an admin. It is not mandatory, and you don't even need to take permissions if you are not an admin. All you need is to have a PTL account. Are you going to change the default schedule? No, the default schedule is the
