It's very complex to use these cameras. We have done a lot of tests, but we don't know how to use all the features. The project was to edit an old pirate movie. The sound for the movie was in mono. I used Adobe Premier Pro to edit the audio. Other sound was added after the video. I used the Genrex ReView Pro 10 plugin to improve the audio. (Version 1.0.0.49). I re-recorded the music. I used the SoundScaper plugin from the GEGS library. This plugin is very good. The picture was mainly shot in the sky. I have used light sources. I've followed the eye shot concept. This method was good for editing the shot. It's best to shoot in the sky, because there are not too many objects that fall into the frame.
