Touch _Touch_ is the big new feature in Photoshop CS6. This is an iPad app that allows you to touch, drag, and rotate images to make changes. You can even save your changes to the image or to a different file type. From the home screen, use the tab at the top of the screen to choose an image to open. (The home screen serves as a folder.) From the menu that appears, choose Touch to get started. The Touch editing system works best for very basic editing tasks. If you want more precise control and finer details, you can use the traditional work area of Photoshop Elements or another equivalent application. For example, if you want to adjust the color of a person's shirt, you can use Touch to select the person, then choose a new color, a new saturation, or a new brightness. Then you can touch the shirt to change the color.

It seems like I've been sending you some of the images I get done here and there but I'm not posting them because I either don't know how to post them on my own site, I don't know where to send them, or I don't know what to do with them. This is a design I did for a friend, but I can't find his email. I think his name is on it too, but I don't remember it. Can you please tell me where I can post these images? Or can you help me get some images out of our studio? I haven't worked in it in almost a year, and forgot what I was doing in there... Love the art. I love the watercolor and the color pencil and the scratched textures. I have been thinking about getting a paint brush right before I saw your textures. I remember working with the acrylics with a friend of mine who did a lot of painting. The last one would be a conversation piece and the first one would be for my home studio/studio. Just wondering if you can put up a photo here of it and say a little bit about it. Every single one of these designs is for someone I know personally, but I'm not posting any of them because I can't find them, or I don't know how to get ahold of them. I've been getting jobs all the time. It's tough having all this talent and not being able to get enough of it out there. Luckily, my career is growing and I'm slowly getting busier, so I hope I'll be able to find what I want to do. It would be nice to put more of your work up. I'd love to buy one of your paintings.
