What is FIFA Ultimate Team? It's a lot of fun. It's a game of skill, tactics, precision passing and fast reflexes. The emotions you feel as you pull off a special skill or powerfully stick the ball in the back of the net are like no other video game. Of course, there are millions of other people playing the game, and all of them will do just as much, if not more, as you. It's a game of tactics and stats. Having said that, you'll also have opportunities to develop your team, make new friends with players from all over the world, earn FIFA Ultimate Team coins, and become a FIFA Ultimate Team Legend. How do I play? Simple: You dribble the ball, shoot with the right stick, and pass with the left. Simple... but really fun. What does "Ultimate Team" actually mean? Ultimate Team is a way to play more than 100 different matches all at once, one "live" and one after another. You can actually use your previous team, but if you prefer building a new one, that's what the game is all about. All your players are real people, and using them all together, they create one of the most complete team you can find. What do I need to play? There's not much you need, except a FIFA Ultimate Team game account. It's not really a monthly fee; you buy Ultimate Team coins and use them to build your team. You can earn coins through special events, promotions, or through in-game in-app purchases. Can I play against other players? Sure! Every day on your favorite website, your friends, Facebook and Twitter, you can see your friends' stats, you can win and lose trophies, and you can develop your own Ultimate Team as well. How is FIFA Ultimate Team different from other soccer games? You'll always have the opportunity to develop your team, and it's much easier to have fun when you're playing FIFA Ultimate Team. Most importantly, when you play FIFA Ultimate Team, you really play a lot. Each player has his own personality, so you feel like you're playing a live game. You'll always find a competitive side of you. How can I earn coins? Read below for some tips
